

June 2013

Peace and tranquillity matched with modern technology

12 Months Free Virgin Media*

Virgin Media are delighted to announce that they are installing fibre optic cable at Navigation Point Castleford with anticipated download speeds of up to 120Mb.

Virgin Media will be offering free installation on various tailor made packages including:

- Fibre Optic Broadband
- TV Sport and Movies
- Home Phone
- Virgin Mobile

Irene Scurrah, Sales Manager says “ We are delighted Virgin Media will be installing fibre optic cables as fast internet access is becoming a pre-requisite of many buyers. To enable easy access to the internet we have installed at least two virgin media sockets in each house”.

* All Virgin Media orders are subject to Virgin Media standard terms and conditions including credit check and minimum term 12 month contract. For the first five people to exchange contracts on Phase 1, A £300 credit will be applied to your Virgin Media account by Greenhaven prior to the first bill being issued. The £300 credit is equivalent to or greater than the cost of many Virgin Media 12 month package options. Where the 12 month cost exceeds £300, either through service charges or usage charges, the contracted customer will be responsible for the balance”
